VT WasterWater Permit for Valley Cares

VT Land Use Permit for Valley Cares

SB Minutes Draft

At 7:30 representatives of Leland & Gray came regarding the upcoming bond vote. Emily gave an overview of this committee which took recommendations from the earlier formed Ad Hoc Committee that had produced a Needs Assessment Document and a Citizens Committee that had produced a Long Term Facility Plan. Stevens & Associates has done a site design for the new addition. Also included in this new design is new parking behind the Town Hall as well as a new septic for Town Hall, this portion will be voted on separately by voters of Townshend. The group handed out tabloid size designs to our members and left the meeting at 9:00 PM.

Charles made a motion to adjourn, seconded by Monette, unanimous acceptance brought the meeting to a close at 9:05 PM.

Respectfully submitted,  
Susan LeCours, clerk
