8. **Old Business:**

a. **Road Name change policy discussion:** Swiger reads through his draft of a Road Name Change Policy. Lake expresses his concern of setting a precedent. Connolly requests that the policy states the reason such as postal issues or E911 issue. She states that if we focus the reasons then that may address the concern of setting precedent. Swiger states that as Vermont grows this may become more of an issue. Might make sense to look up postal regulations. Lake suggests contacting the Brattleboro Planning Commission who may have a policy on this issue.

Mat Brody states that his request is for a private road not a town road. Wright asks Brody if he would be ok with making his address part of Gale Road. Brody states that it is not part of Gale Road and if he did it would become part of Gale Road. Then the town would have to maintain the road. Currently the town does not maintain the road. Connolly states that she was under the impression that the request was for a town maintained road. Marrow states that this demonstrates that we need more discussion on this issue. Swiger thanks Brody for his patience on this issue and that he hopes the Selectboard will have something for October.

Ira Stoll, member of the public, states that if it is a private road then the Selectboard should have nothing to do with this. Wright asks what if it already has a name? Stoll replies that the owner gets the sign. Lake suggests that we do the research on a private road.

b. **Common/Town Hall Use policy discussion:** Lake states that the Common/Town Hall revised policy is essentially a combination of the two existing policies. Swiger requests that in the new policy there be a requirement of no confetti allowed on the common. Swiger points out that there was confetti left on the common after Fair Day. Connolly points out that the policy should state who oversees the policy and what is the consequence of the policy not being adhered to.

Lake adds that there should be language about a public meeting bound by the open meeting laws will need to have ADA compliance and private parties are not bound by the ADA guidelines. Connolly suggests maybe inserting a statement that the second floor is not ADA compliant. Marrow adds that there should be an indication of the maximum occupancy for the first floor meeting room and the second floor meeting room.

Laura Richardson, member of the public, raises the issue of requiring a damage deposit. She also states that she does not agree with waiving the fee, because the group that is using the commons are using utilities and effecting the grass. Wright suggests that this issue be brought at Town Meeting.

Swiger states that he believes the discretion to waive the fee should be in the hands of the Selectboard. Richardson states that there was a reason for the fee, because of the impact on a public space. Wright makes a motion to table the policy revision for two

meetings from now. Swiger seconds the motion. Motion carries 5-0-0.

9. **New Business:**
